WORK EXPERIENCE

- **MERN Stack Intern** at Purezza Technologies Aug 2024 - Oct 2024
Worked as a backend developer at Purezza Technologies, in a fast-paced learning environment.
 - Worked upon many javascript libraries like joi, socket.io, mongoose, and data models.
 - Experience in API handling and API testing software like Postman and Swagger.

PROJECTS

- **E-cart** Aug, 2022
A fully functional online store where users can buy different products and a separate admin portal
 - **Tech-Stack:** React, Node js, Express, MongoDB (MERN Stack), Bootstrap
 - Optimized for better user experience and utilized responsive design
 - Personalized dashboard for every user
 - Totally secured admin page where the admin can smoothly perform all the crud operations.
- **Task-manager** July, 2024
This is a simple task management web application with most of the useful features and an elegant UI.
 - **Tech-Stack:** React, Typescript, Tailwind CSS
 - User Dashboard to give the user a personalized experience.
 - Added all the important features like the user can add, edit, or delete tasks and mark them completed as well.
 - Tasks are stored in local storage, so they will not be deleted automatically even if the user leaves the website.
